MASTER YOUR MIND, MASTER YOUR LIFE

The person you are today has been created by the way you think and use your mind.

To change your life, you must become a master of your thinking.

In this workshop you will learn how to change your "personal software" to make it more consistent with the success and results you deserve.

You will learn the foundational concepts and tools of the Claim Leadership Program:

- How you have been programmed from a young age to limit yourself
- How to remove the obstacles; to become more confident and capable
- How to reach new levels of leadership, success and happiness

PAULA'S PRESENTATIONS ARE PRACTICAL AND HIGHLY INTERACTIVE

Through simple and quick exercises, Paula creates the interaction necessary for deep, insightful learning that leaves her audiences with new tools to help them be more effective immediately. Audiences also gain simple formulas to help them remember what they are learning so that they can benefit from their learning for years to come.

PAULA'S PRESENTATIONS ARE BASED ON CUTTING EDGE RESEARCH

Unlike speakers who share insight with their audiences based on a purely personal inspiring story, or built entirely from a theoretical foundation, Paula has the unique ability to do both.

She combines relevant research, best practices and proven methods with wisdom gained in the trenches working directly with leaders and team members in a wide variety of organizations.

The result is that her audiences trust that the insights she shares are relevant and credible. Her high energy, humor and personal connection ensures that they are also engaged and inspired enough to immediately begin putting those insights into action.

PAULA'S PRESENTATIONS INSPIRE IMMEDIATE ACTION AND LASTING RESULTS

Paula's presentations create lasting results because they are designed to create significant shifts in perspective. Because participants learn to ask new questions they drive ongoing innovation and consistently make new discoveries for themselves.
